and I think you will find that most of the evidence the
objective evidence is pretty straightforward. We
will not dispute that on Jan 14, 1994 - McQueen O'Leary
car was taken & ultimately the man was shot
~~the car was taken~~ - his credit card was used
to purchase items - we don't challenge these experts

But we ask you to listen to the case & judge in the evidence

Evidence will show - 3 people involved - of the three 2 with
no previous record generally for them involved,
Charged w. Same Offense, convicted of Same Crime, App N
but will not receive death penalty

evidence will show - on that terrible night
he was ~~to the~~ ^{in the} car. they had been
drinking beer - GUN - 81 Smokey Mary's

They decided to steal a car

officer that went on, this night mare, for both
the man who was shot & his family, as well as for L.M. & his family

003014

But

Lee v Jean - D-wrote to Hamilton Fairfield Soc.

Saw M. O.

Don't dispute that -

L.M. had gun - don't dispute that

But ask you to listen to the evidence

That evidence will show that Lee has a gun

but it will also show that ^{he had} he did not mean to shoot anyone, the gun accidentally went off

That he had been drinking, something, he panicked & the gun went off

- because he panicked because he claimed this shooting was an accident - He told the jury it was an accident - ^{he was} he was

There is a real question as to whether this shooting was ⁱⁿ premeditated or a result of poor calculation & design

the evidence will show it was an accident

not premeditated & design - not premeditated
No specific intent

It is necessary for Ag, M

L.M. may be guilty of something - but may not be Ag, M

But again - I ask you to wait & listen to all of the evidence

Keep your mind, do not let emotion ^{control you} ^{accuse} do not make up your mind until you've heard all of the evidence -
